The goal of the Game:
meaningful enjoyment - its main benefit

Plus it provides additional benefits:

1. Creative Learning
2. Social networking
3. Financial benefits

1. Creative Learning

- Hands-on experience: learning through creative process of creating multi-media compositions
- Synergy effect: music has been shown to enhance learning
- Fan learning: in a form of a game

Easy to assemble pieces of puzzle: muti-media compositions

The screenshot shows a web-based interface for creating multi-media compositions. It is divided into several colored sections:

- Top Section (Brown):** Text color: #000000, Background color: #996666, Background image: No image, Frame color: Blue.
- Image Section (Pink):** Picture URL: /files/p1/images/Chocolate_Bur, Picture placement: At the top, Source, Title, and an Upload button. A small image of a chocolate burrito is shown.
- Audio Section (Yellow):** Audio URL: http://www.playcast.ru/uploads2/2010/02/03, Source, Title, and an Upload button. A play button and a progress bar are also visible.
- Video Section (Green):** For YouTube you can specify either full URL, like <http://www.youtube.com/watch?v=aWdeFADJjM> or the last code only, like **aWdeFADJjM**. It includes Video URL, Source, Title, and a Preview button.
- Category Selection (Yellow):** English, Specify the category where you wish to place your game, --Select a category--, and a text input field for suggesting a new category.
- Subcategory Selection (Yellow):** If there are subcategories, you may also specify a subcategory, and a text input field for suggesting a subcategory.
- Preferences (Yellow):** Your preferences: I allow for others to add comments, I allow for others to change the game's content itself, I allow to show ad together with my game, for me to receive a part of revenues due to it.

At the bottom, there is a toolbar with options for format, font, size, and text styling (bold, italic, underline, link, unlink, list, list, indent, outdent, undo, redo).

2. Social Networking

- Inter-department collaboration:
Art, Music, Languages, Literature and other departments can work on joint projects
- Inter-school collaboration/competitions
- International collaboration/competitions

Food for body & mind: Literature and Food Science
students can use music students' pieces

3. Financial Benefits

Functionality is coming soon:

3.1. Advertisement. Players have a choice to post advertisements on their pages

- this site is educational, and only approved pool of advertisements is selected: appropriate books, music, games, etc.
- parents/legal guardians have to select this option allowing advertisements on their child's pages
- talented games with high grading attracting traffic through the site have a potential to generate more advertising revenues: creativity rewards itself™
- players, who become co-authors, can share the advertising revenue

3.2. Licensing. Players can offer their music, image, graphical files for sell or licensing, or become co-authors.

3.3. Tax deductions. Part of business expenses related to the creation of games might be eligible for tax deductions-- please consult your tax adviser.
